

How to install and run Dark Knight Event

Close the game “Game.bat”

then open (PhpStudy) Then Open MySQL-FONT

Open cokdb1 select “Activity”

Create on “Create table as you see in the picture”

Copy the openTime,startTime and endTime from ws event

And paste it in the Dark Knight One as you see in the picture

0		100		Filter	
id	name	type	openTime	startTime	endTime
110004	MonsterSiege	4	1498755600139	14987556009	1498755600993

Open the Game

“Game.bat” then open Event Center you will find it working.
